OEM BASE UNIT 42-48710 AUTOMATED A/C SERVICE CENTER

To Order Call
866.539.4248

The OEM Base Unit 48710 offers all of the features of the Robinair 34788 CoolTech PLUS additional features and options.

OEM BASE UNIT 48710 ADDS THESE FEATURES:

- Integrated Thermal Printer
- ZigBee Wireless Temperature Probes
- Ambient Temperature & Humidity Sensor (wireless available)
- Real Time Clock
- Removable Hoses
- Encrypted Warranty Codes with Decryption Software
- Larger 1/4 VGA Display
- Software Usability Enhancements
- Hose Oil Clearing & Oil Injection Clearing
- Notification Light & Tone for Top of Unit
- Modular Engineering Accommodates Unit Options
- Basic Help Screens Guide You Through the Procedures

FEATURES: (Same features as the current Robinair 34788 CoolTech)

- Recovers 95% of Refrigerant
- Fully Compliant with New SAE J-2788 Standard
- Charge Accuracy of +/- 1/2 oz.
- Optional Updateable Vehicle Database (system capacity)
- Oil Injection Prior to Charge
- Automatic Function
- Vacuum Leak Test
- Automatic Refrigerant Refill
- Automatic Air Purge
- Automatic Oil Drain
- Refrigerant Charging
- Refrigerant Management Systems
- Vacuum Function

OPTIONS:

- Database Functionality – Multiple Parameters
- Oil Scale Capability
- Sealed Oil Bottle Capability
- External Refrigerant Identifier Ready
- Enhanced Help Screen – OEM specific

Order Part
#42-48710
\$4,950.00

Pricing good thru 6/30/09. Products sold F.O.B Shipping Point.

ROBINAIR 42-34788 COOLTECH A/C MACHINE

To Order Call
866.539.4248

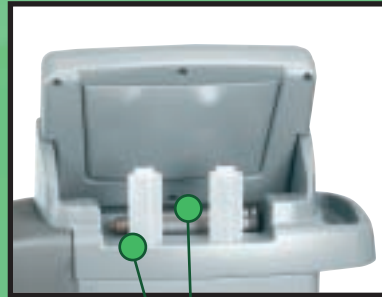

SETTING THE COURSE FOR CHANGE! The Robinair 34788 CoolTech's fully automatic function lets you recover, vacuum leak test, charge and then ... walk away!

The SAE recently approved tighter standards for automotive A/C recovery, recycle and recharge equipment. The new SAE J-2788 standard requires that all R-134a service equipment manufactured after November 1, 2007 must recover 95% of the refrigerant and recharge to within 1/2 ounce.

The Robinair 34788 CoolTech recovers up to 20% more refrigerant than older generation service machines, which means less cost to recharge the system.

The Robinair 34788 CoolTech recharges the vehicle to within 1/2 ounce of the charge capacity, so you will avoid the dreaded "callback."

With the Robinair 34788 CoolTech, you will realize more profits per service by recovering more refrigerant and charging less.

- BUILT-IN STORAGE FOR EXTRA FILTER
- ON-BOARD STORAGE FOR COMPRESSOR OILS

**extra filter and bottles not included*
